

# HBB

DJ, producer and full time engineer, born in Iraq, grew up in Africa, and residing in Los Angeles.

HBB stands out in the DJing world for his refusal to follow genre conventions. His performances are energetic musical journeys that skillfully combine tracks from progressive, minimal/tech, Techno and organic genres. HBB has succeeded to incorporate his Middle Eastern background into the organic house scene.

The name "HBB", originating from the Arabic term "Habibi" meaning "my love" or "my dear," mirrors his multicultural upbringing in Iraq and formative years in Africa and the US.
